

Vic Properties S.A. is considering several growth strategies including a pre-IPO and IPO financing solutions.

Lisbon, 1 March 2019. VIC Properties S.A. (“VIC Properties”), the Real Estate developer that just arrived in Portugal, is considering several alternatives for its growth plans including a pre-IPO and IPO solutions.

The company is currently responsible for the Prata Riverside Village project, in Lisbon, and aspires to be the leading player in the Portuguese real estate development market. Taking into account all transactions signed to date, the real estate developer has a gross development value of c.€2.0bn.

Focused on the undersupplied Portuguese residential real estate market, VIC Properties combines unique in-house local development expertise, capital market knowledge and extensive experience in large development projects. Headquartered in Lisbon, and led by a highly seasoned Management Team, the company is a fully integrated real estate platform covering the entire construction process value chain.

VIC Properties is engaged from the sourcing of the land plots throughout the planning phase to construction and sale, as well as property management and the associated services. The undersupplied residential market and the highly fragmented real estate development sector in Portugal provide a unique market opportunity for VIC Properties and all its stakeholders.
